MANIPAL UNIVERSITY JAIPUR

Department of Economics School of Humanities & Social Sciences

Overview: The concept of mentoring is age old. "Mentoring is a protected relationship in which learning can occur, potential skills can be developed, and in which results can be measured in terms of competence gained. Crucial components of mentoring relationships include personal and professional development. At the higher education level, a careful teacher's mentoring is required to help the student to acquire skills and objectives of the programmes they are registered for and to help them face the complexities of thoughts which students at this age feel.

Guidelines for Mentor's Program

For Mentors

1. Mentors shall maintain proper records about personal / academic details of their Mentees.
2. Mentors must maintain regular communication with their Mentees by way of holding formal / informal meetings. They should maintain a regular record of their meetings, which shall be submitted at the end of every Semester / whenever required.
3. In case of any irregularities like regular absence from classes, shortage of attendance, unusual behavior, poor academics etc, Mentor shall convey the information to their parents or they may be called to discuss the issues personally.
4. Any other agenda for professional development may be taken up by mentors.
5. The Mentors shall guide their assigned Mentees for the entire duration of the Program, until decided otherwise.

For Mentees

1. Mentees shall remain in proper communication with their Mentors.
2. Mentees can discuss any academic / professional issues and seek guidance from their Mentors.
