The records of previous semester were kept in the
and after showing the records to the then form
committee, the records were handed over to MIS. Howev
and awarded 7 out of 10 marks in the lab rec
to late submission (the student is contradicting it.
it is assumed that based on his overall acade
performance in all the subjects there is a scope of
awarding 3 marks in his continuous lab assessm
ent (internal) in which he had scored 59 ou
10. So based on the discussion with the new com
formed I recommend an increase of 3 marks
in overall internal assessment of DS lab (CS1331).
The total marks scored will become 91 out of 100.
