Subject: Invitation for technical deliberations and discussing future collaboration opportunities

Dear Dr. Sunil Kumar Goyal,

We are pleased to invite you to Lincus' Tempe office located at 8950 S. 52nd Street, Suite 415, Tempe, AZ 85284 for several technical discussions related to the field of energy efficiency, Smart grid solutions, and data acquisition systems.

Lincus, Inc. provide innovative energy efficiency, demand management, and environmental solutions to large electric and gas utilities, major corporations, city planners, and medical institutions. We serve several Western states in the United States including most of California from our four offices located in California and Arizona. Lincus team members have significant expertise in energy engineering and has insatiable thirsts for knowledge with over 50% carrying a graduate level degree and 15% holding a Doctorate in Philosophy degree. With your vast and in-depth knowledge in power systems, our employees will highly benefit from your company.

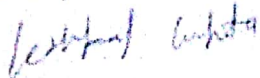

The technical deliberations will include but not limited to the following themes:

1. Implementation of power conditioning equipment for demand management
2. Managing harmonics from Variable Frequency Drive installations
3. Future of smart grid and how to integrate distributed renewable energy generation
4. Reducing cost for remote data acquisition technology

It is an honor and privilege to invite you to join our team for these technical deliberations. We believe that your insight on these topics will be of great benefit.

We look forward to a positive confirmation, an honor for us indeed.

Your Faithfully,
Yeshpal Gupta, Ph.D.
