

To whom it might concern,

I'm writing this letter to certify that Mr. Anil Sharma, Department of Mechatronics, Manipal University Jaipur, has visited the Biomechatronics and Neurorehabilitation Laboratory at Chalmers University of Technology in Gothenburg, Sweden, from July 2nd, 2019 to July 17th, 2019. He gained research exposure as a result of experimental procedures that he was a part of, in recording and analysis of the bioelectric signals through our research platform, BioPatRec. He acquainted himself with our state-of-the-art research facilities and had the opportunity to have an overview of our ongoing research.

It was pleasure having Mr. Anil at our University for almost 2 weeks. I hope it has been fruitful for him to visit our lab and our university. I look forward to future collaboration with Mr. Anil on joint research projects.

Best Regards,

Max Ortiz Catalan, PhD,

Associate Professor,

Head of the Biomechatronics and Neurorehabilitation Laboratory,

Department of Electrical Engineering,

Chalmers University of Technology
