

1. Expert lecture on “Energy and environment problems facing the third world and their probable solutions for sustainable development and poverty alleviation” is delivered in the departments of Mechanical Engineering on 28 March 2018 by Dr. D.P. Kothari, former Director of IIT Delhi and Vice-Chancellor of VIT Vellore

Dr. D. P. Kothari is an educationist and professor who has held leadership positions at engineering institutions in India including IIT Delhi, VNIT Nagpur and VIT University Vellore.

Expert lecture on “Energy and environment problems facing the third world and their probable solutions for sustainable development and poverty alleviation” is delivered in the departments of Mechanical Engineering and Electrical Engineering on 28 March 2018.

He has shared his experiences, what students should do to excel, explained opportunities to work aboard and India as summer internships, fellowships and Master Programs. He has stated that every engineering student should attempt GATE and/or IES exam.

Some of the queries raised by the students are (i) Promising and sustainable powers, (ii) Mini and micro power stations, (iii) Development and management of Hybrid power, (iv) Hybrid vehicle, (v) Power storage systems and (vi) reliability.
