

Manipal University Jaipur Initiatives for Conservation and Sustainable Land Utilization

Manipal University Jaipur fosters awareness and actively participates in efforts to conserve and sustainably utilize land, including forests and wild areas. Recognizing the urgency of addressing environmental challenges, Manipal University Jaipur stepped up efforts to organize events and initiatives aimed at promoting conservation and responsible land use. Manipal University Jaipur supports and organizes events that contribute to the preservation of our natural resources.

One of the fundamental ways in which Manipal University Jaipur contributes to conservation and sustainable land utilization is through education and research. Manipal University Jaipur provides students with the knowledge and tools to understand the complex ecological systems that govern our land. Manipal University Jaipur hosts conferences and seminars focused on conservation and sustainable land utilization. These events bring together experts, scholars, and activists from various fields to discuss pressing issues, share knowledge, and propose solutions. These gatherings serve as platforms for networking and collaboration among individuals and organizations committed to environmental conservation. Students, often at the forefront of environmental activism, are encouraged and supported by the university to launch its own conservation initiatives. These initiatives range from reforestation projects to wildlife conservation efforts. Manipal University Jaipur offers resources, mentorship, and funding opportunities to empower students to make a meaningful impact on land conservation. Manipal University Jaipur frequently engages with local communities to raise awareness about the importance of land conservation. They organize outreach programs, workshops, and educational events that involve community members in conservation efforts. Collaboration is key to tackling complex environmental challenges. Manipal University Jaipur often establishes partnerships with government agencies, non-profit organizations, and industry leaders to leverage resources and expertise. These collaborations result in more comprehensive and effective conservation efforts. To lead by example, Manipal University Jaipur adopts sustainable practices on the own campuses. This includes rewilding portions of the campus, implementing energy-efficient technologies, and promoting sustainable land management practices. These initiatives demonstrate the institution's commitment to the cause and inspire students and staff to adopt environmentally friendly habits.

1. Introduction of the Event:

In a bid to explore the rich and cultural heritage of Jaipur, Heritage Club, School of Architecture and Design conducted the HERITAGE WALK 2.0, An Evening in Amber on 22nd April 2022. The walk included various parts of the Amber Fort and the Sound and Light Show.

2. Objective of the Event:

Through this activity, it was intended:

- to understand the significance of our heritage
- to appreciate the modern-day techniques used to disseminate knowledge of our historic past in an engaging manner
- to be motivated to contribute in the smallest way possible to preserve our heritage

3. Beneficiaries of the Event:

All MUJ students

4. Brief Description of the event:

Heritage Club (School of Architecture and Design) conducted an evening Heritage Walk into the historic Amber Fort to acquaint the student fraternity of MUJ with our cultural heritage, on 22nd April 2022. The walk took the participants through various parts of the fort where they were able to appreciate and admire the architectural grandeur, ancient planning and construction techniques and tales of the royal Rajputana heritage. The students also got to experience a mesmerizing and informative light and sound show, which is conducted at the Amber fort. The evening tour was a unique experience in terms of exploring spaces and activities during and after the sun set. The minimal lighting created an ambience to depict historic era on a typical evening. During the course of walk, they were inspired to understand the significance of our heritage and thereby motivated to contribute in the smallest way possible to preserve it. The walk was conducted by the students of School of Architecture and Design based on a background study about the site.

I would most definitely recommend any future walks that the club would organise. As I have attended both the walks, I am really impressed to say that the overall quality of the event has just been brought a little closer to being perfect. Other than it ending very soon, I don't think there's much area left to complain about. A lot of useful information was brought up at the event and it wasn't fair to have such less attendees, maybe in future there could be more advertising of the event to get more people to join. The club members have worked really hard to make this event a success and it indeed was. 🌟

We reached the fort by 6pm so we had to see the fort quickly. It would have been nice if we had reached an hour earlier as that would have given us some time to hang around and explore some other parts of the fort.

1. Introduction of the Event

A conversation with Ar. Chitra Vishwanath was organized on Monday, 23rd May 2022 by School of Architecture and Design. She was felicitated by the Dean, FoD and Head, Architecture, SA&D. The conversation was scheduled for students to develop a deeper understanding of the profession as an extremely strong tool to provide design solutions that cause lesser harm to the environment and the context, both immediate and on broader level.

Ar. Chitra is the principal architect & managing director of Biome Environmental Solutions which is based in Bengaluru who works on themes related to ecology, architecture and water. She has been running her own architectural firm since 1991, working with other architects on many projects in India and Africa.

The talk was moderated by Ar. Rishabh Wadhwa, the founder of BlessedArch. He could be found by this name on YouTube and Instagram, where he has 94.8k subscribers and 71.5k followers respectively. Rishabh Wadhwa pursued his B.Arch from School of Architecture and Design, Manipal University Jaipur and graduated in 2018. He conceptualised the idea of “BlessedArch” during his 3rd semester and now, has grown tremendously in that world. His journey has been beautiful, and we were glad to introduce our colleague with enormous proud to all the B.Arch students.

2. Objective of the Event

- To help the students understand the influence and impact of climate crisis as a global and local issues.
- To give a detailed overview on her journey as a practicing architect providing environmental solutions.
- To understand how architecture is not just about designing buildings but also about addressing a number of other strengths and challenges associated with the profession.

3. Beneficiaries of the Event

More than 15 faculty members and students of 1st-3rd year of B.Arch actively participated in the talk.

4. Details of the Guests

- a. Ar. Chitra Vishwanath, speaker, principal architect & managing director of Biome Environmental Solutions
- b. Rishabh Wadhwa, speaker, Founder of BlessedArch
- c. Prof. Dr. Madhura Yadav, Dean FoD, MUJ
- d. Prof. Sunanda Kapoor, Head, Architecture, SA&D, MUJ

5. Brief Description of the event

The interactive session helped the students to learn interesting facts about her work, along with giving a detailed insight on how she took inspirations from around the globe and put her skills and learnings into the profession to deliver design solutions that cause lesser harm to the environment. In addition to understanding her approach towards the design, we all also learnt how these

environmental solutions can be designed and articulated on site. After having interviewed Chitra Ma'am, the session was then opened for students to ask questions as per their own curiosities.

Post this question-answer session, Ar. Chitra was taken to each architectural studio where students had displayed their academic design works. This session started with the 3rd Year B.Arch students presenting their work, followed by 2nd year batch and the 1st year batch. Critical feedbacks were given to all the students who got the opportunity to present their concepts and ideas to her.

A city tour to Jawahar Kala Kendra which is a magnificent design created by Ar. Charles Correa was also organized where Ar. Chitra was accompanied by two faculties from SA&D, namely Ar. Ayushi Sharma and Ar. Nisha Nelson. After appreciating the beauty and textures of Jawahar Kala Kendra, the tour was wrapped by paying a visit to Albert Hall Museum and Masala Chowk to give her a little insight of the Pink City of Jaipur.

Rotary started with the vision of one man — Paul Harris. The Chicago attorney formed the Rotary Club of Chicago on 23 February 1905, so professionals with diverse backgrounds could exchange ideas and form meaningful, lifelong friendships.

Over time, Rotary's reach and vision gradually extended to humanitarian service. Members have a long track record of addressing challenges in their communities and around the world.

Rotary is a global network of 1.4 million neighbors, friends, leaders, and problem-solvers who see a world where people unite and take action to create lasting change – across the globe, in our communities, and in ourselves. They provide service to others, promote integrity, and advance world understanding, goodwill, and peace through our fellowship of business, professional, and community leaders. We collaborate with community leaders who want to get to work on projects that have a real, lasting impact

on people's lives. We connect passionate people with diverse perspectives to exchange ideas, forge lifelong friendships, and, above all, take action to change the world.

5. Brief Description of the event

The event was conducted on 9th September 2022. During the event students of School of Business and commerce along with NCC and NSS volunteers planted trees in the NCC Jaipur Campus. The chief guest of the event was Group captain Neeraj Amba, 1Raj Air SQN NCC Jaipur. The plantation drive started with a welcome speech by the chief guest in which he encouraged the students to participate in community services and social welfare. Then students and teachers planted trees across the campus. The drive emphasised on creating more and more green spots in the city and contribute towards the environment protection.

Rotary Club Jaipur Bapu Nagar

Rotary started with the vision of one man — Paul Harris. The Chicago attorney formed the Rotary Club of Chicago on 23 February 1905, so professionals with diverse backgrounds could exchange ideas and form meaningful, lifelong friendships.

Over time, Rotary's reach and vision gradually extended to humanitarian service. Members have a long track record of addressing challenges in their communities and around the world.

Rotary is a global network of 1.4 million neighbors, friends, leaders, and problem-solvers who see a world where people unite and take action to create lasting change – across the globe, in our communities, and in ourselves. They provide service to others, promote integrity, and advance world understanding, goodwill, and peace through our fellowship of business, professional, and community leaders. We collaborate with community leaders who want to get to work on projects that have a real, lasting impact on people's lives. We connect passionate people with diverse perspectives to exchange ideas, forge lifelong friendships, and, above all, take action to change the world.

5. Brief Description of the Event

Plantation Drive 2022 - Rotaract Club, MUJ organized an event wherein students were filled with enthusiasm and aspirations to inspire and help the environment. The students took a bus to the venues and formed groups to plant saplings of different types. This event helped the students to emotionally connect with our environment as one and have a sense of belonging and views for the betterment of our country.

All the students from each group participated enthusiastically, expressing their desire to plant and water the saplings. The faculty of the respective schools took part in the plantation with the same aspirations to teach the young minds studying in their school. It was a successful event with the conclusion being the goal achieved of planting 60 saplings in total leading to a better future and a new hope.
