

Manipal University Jaipur Leading the Way in Promoting Conscious Water Usage

Water is an essential resource for our planet, and its careful management is crucial for a sustainable future. Universities play a pivotal role in educating and motivating change, both on their campuses and in the wider community. Manipal University Jaipur, situated in Jaipur, Rajasthan, is leading the charge in advocating for mindful water usage. The university not only promotes water conservation within its campus but also strives to positively influence the surrounding community.

Mindful water usage entails being aware of our water consumption and implementing practices that minimize waste while safeguarding this invaluable resource. Manipal University Jaipur understands that its initiatives can serve as a model for students, staff, and the broader community. The university has made significant investments in water-efficient infrastructure throughout its campus, including low-flow faucets, water-saving toilets, and energy-efficient water heaters in all facilities. These initiatives have led to a notable decrease in water usage. The landscaping on campus is thoughtfully designed with water conservation as a priority, utilizing xeriscaping techniques that incorporate drought-resistant native plants. Additionally, drip irrigation systems are in place to reduce water waste, and rain gardens are designed to capture and filter rainwater, thereby decreasing runoff. The university employs advanced irrigation systems that adjust watering schedules based on weather conditions and soil moisture, ensuring that lawns and green spaces receive optimal hydration while conserving resources.

Manipal University Jaipur is committed to educating its students, faculty, and staff about the significance of water conservation. Through awareness campaigns, workshops, and sustainability clubs, the university engages the campus community in initiatives aimed at reducing water waste. Collaborations with local schools, environmental organizations, and government bodies further enhance these efforts, involving joint projects, workshops, and community events centered on sustainable water practices.

1. Introduction of the Event

Expert Lecture On Nature-based technologies for treatment and recycling wastewater by Dr. Sanjeev Prajapati, Department of Hydro and Renewable Energy (HRED) Indian Institute of Technology, Roorkee

2. Objective of the Event (bullet points or about 50 words)

The lecture was designed to provide insight into the processes and techniques that are applied in the wastewater treatment field, where the focus is laid on the basic principles, local conditions, basic circumstances, and performance of constructed wetlands integrated with the algae-based process which aimed towards the resource recycling.

3. Beneficiaries of the Event (Student/Faculty/Community etc) (25 words)

The lecture was the starting stage for the students to learn about the integrated constructed wetlands and learn about the design of various industrial components. This is thus meant to bring about a general understanding of the research illustrated and explained by the expert.

4. Details of the Guests (Chief Guests, speakers etc Designation, organization, contact details if any please give them in sr no)

Dr. Sanjeev Prajapati, Department of Hydro and Renewable Energy (HRED)

1. Introduction of the Event

The School of Architecture and Design, Manipal University Jaipur, organized an expert lecture on 'Landscape Architecture – beyond its stereotype' by Ar. Akshay Kaul in coordination with RVS, college, Chennai to guide aspiring students to explore and understand the field of Landscape Architecture.

These lecture sessions become the platform for students to interact with experts in Landscape Architecture and bridge the gap between theory and practice in the profession. The session on 'Landscape Architecture – beyond its Stereotype' aimed to help them navigate the evolving landscape, allowing them to learn and understand a Landscape as a profession. During the program Dr. Madura Yadav (Dean FoD), Prof. Sunanda Kapoor (Head SA&D), etc. were present. The program was coordinated by Ar. Kinzalk Chauhan, Assistant Professor from the School of Architecture and Design, Manipal University Jaipur.

2. Objective of the Event

- To share specialized knowledge and insights with the students.
- Aware the students of new developments, theories, or methodologies in the field of Landscape.
- To stimulate critical thinking and intellectual curiosity among the students.
- To demonstrate applications of theoretical knowledge in real-world scenarios.

3. Beneficiaries of the Event

More than 100 participants were present in the event from different Universities.

4. Details of the Guests

Ar. Akshay Kaul (Founder, Principal Landscape Architect - Akshay Kaul and Associates)

5. Brief Description of the event

The expert lecture was conducted on March 24, 2023, from 11 am onwards (Online mode – Teams Platform) and acted as a platform for students to explore the expansive and transformative potential of landscape architecture. The session started with a brief about Manipal University Jaipur (Video) and the introduction of the Expert of the session Ar. Akshay Kaul.

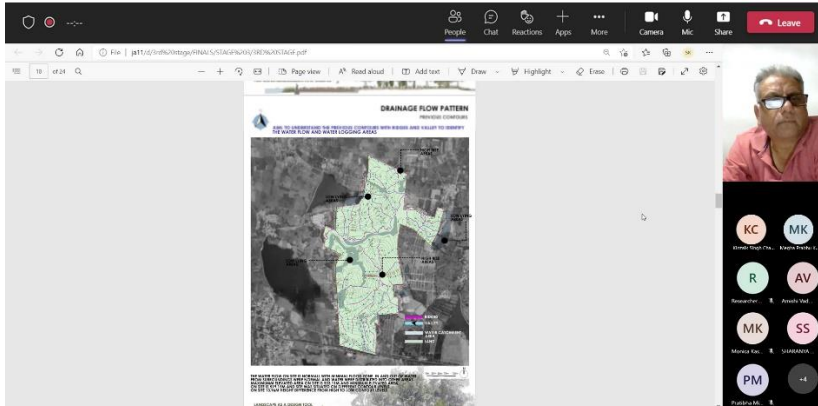

The lecture started with a brief overview of traditional perceptions and stereotypes associated with landscape architecture. Then the exploration of the functional aspects of landscape architecture beyond visual appeal is supported by the Case studies highlighting projects that prioritize functionality and purpose, contributing to the well-being of communities. Ar. Akshay Kaul also shared eco-friendly designs, green infrastructure, and projects that harmonize with the natural environment.

Later the expert Discussion on how landscape architecture can reflect and celebrate cultural identity with some of the case studies.

1. Introduction of the Event

ENVIRO CLUB organized a **'POSTER MAKING AND QUIZ COMPETITION'** on the 22nd of March 2023. On the occasion of World Water Day. This exclusive event brought together environmental enthusiasts to engage in lively poster-making and Quiz Competitions. Embarking on a journey to raise awareness and ignite change, our event unfolded as a dynamic fusion of creativity and intellect. This event has alliance with SDG 6 (Clean water and sanitation) which focuses on equitable access to safe and affordable drinking water for all.

2. Objectives of the Event

- **Raise Awareness:** Foster a deeper understanding of global water challenges, encouraging participants and attendees to comprehend the significance of water conservation and sustainable practices.
- **Promote Creativity:** Provide a creative platform for individuals to express their perspectives on water-related issues through artistic endeavors, emphasizing the power of visual communication in conveying complex messages.
- **Encourage Research and Knowledge:** Stimulate participants to delve into the multifaceted aspects of water-related problems, promoting research and the acquisition of knowledge about current water issues on a global scale.
- **Cultivate a Sense of Responsibility:** Instill a sense of responsibility and urgency in participants regarding water conservation, emphasizing the individual and collective roles in preserving this essential resource.

3. Beneficiaries of the Event

- MUJ students

4. Brief Description of the event

- "Embarking on a journey to raise awareness and ignite change, our event unfolded as a dynamic fusion of creativity and intellect. The Poster Making and Quiz Competition on water issues, held in commemoration of World Water Day, provided a platform for participants to channel their artistic prowess and depth of knowledge. As we dove into the intricacies of global water challenges, each stroke of the brush and every quiz question became a powerful tool for advocacy. This report encapsulates the vibrant expressions of concern, innovation, and determination that emerged from our collective endeavor to address pressing water issues on a global scale. Together, we not only celebrated World Water Day but also laid the foundation for a shared commitment to a sustainable water future.

Following thorough evaluations across various criteria, the first, second and third positions were announced, marking the culmination of the event. The evening concluded with the facilitation of the winners by Dr Nitu Bhatnagar Registrar MUJ.
