The legal framework comprises of: - The Insolvency and Bankruptcy Code, 2016, its amendments, bye-laws made under the provisions of the code, and case laws. Several issues like the pre-packaged insolvency resolution process, decision making power of Committee of Creditors, treatment of home buyers under the IBC, allowing promoters to bid for a company or an asset that is being sought to be resolved, the absence of interest in second-or three-tier companies; have been raised before the government. Cross-border Insolvency is a contemporaneous offshoot area, an overview of which would equip the lawyers to fathom future challenges. Though predominantly, the focus is on the Indian law, an examination of the general theory and introduction of the comparative flavour will make the study even more interesting and enhance the utility of this course for the future corporate lawyers.

Report of Legal Aid Clinic

Skit/Play

on Legal Awareness of the Alternate Dispute Resolution

LAW SUMMIT, 2023

Date: - September 14th, 2023

➤ **INTRODUCTION OF THE EVENT**

The members of the Legal Aid Clinic of Manipal University Jaipur made a significant contribution to the Law Summit, 2023. Various events were conducted by the team including an act/skit on Alternate Dispute Resolution. For this purpose, the team adopted an innovative approach by scripting a piece of act on a land dispute of a village and how it was resolved by the panchayat. This report outlines the manner in which this event was meticulously organized and executed.

➤ **OBJECTIVE**

The primary objectives of the Skit event were:

- i. To disseminate knowledge and raise awareness among students, faculty and our honourable guests.
- ii. To impart legal awareness regarding ADR and to educate about the diverse segments of laws, policies, and governmental schemes that have been instituted for their benefit.

➤ **EVENT EXECUTION**

The event was conducted in a well-structured manner, taking into account the following steps:

i. **Planning and Scripting:**

The Legal Aid Clinic's team embarked on a comprehensive planning phase to develop a script that effectively provides legal information in a relatable and engaging manner. The script was crafted to encompass various aspects of street vendor's rights, related laws, and available government initiatives.

ii. **Performance Execution:**

The Skit was performed with enthusiasm and conviction, ensuring that it resonated with the target audience. The performers effectively portrayed scenarios that highlighted the challenges faced by street vendors and the legal recourse available to them. The use of local language and relatable situations

helped to connect with the viewers on a personal level.

iii. **Audience Interaction:**

After the performance, a Q&A session was conducted to address queries and clear doubts that the students had regarding the rights and legal protections. This interactive session facilitated direct engagement and ensured that the information was comprehended effectively.

iv. **Dissemination of Information: -**

To ensure a sustained impact, informative pamphlets, booklets, and digital resources were distributed among the audience. These materials encapsulated key legal points, essential contacts, and details of relevant schemes.

v. **Feedback and Follow-up:**

Feedback from the audience was encouraged to gauge the effectiveness of the Skit in conveying legal knowledge. Additionally, contact details were collected for future follow-up, allowing the Legal Aid Clinic to provide ongoing support and assistance to the street vendors.

➤ **CONCLUSION**

The Legal Aid Clinic's participation in the Law Summit, 2023, through this activity demonstrated a novel and engaging approach to legal awareness dissemination. By employing the act, the team successfully achieved its objectives of educating and creating awareness among the students about their legal rights and the available governmental provisions. This endeavour exemplifies the clinic's commitment to fostering legal literacy and empowerment within marginalized communities as well as its boundaries.

5. Brief Description of the event

LokNeeti – The Youth Parliament was organised under the aegis of the 2nd edition of the Manipal International Law Summit, 2023.

After the success of the 1st edition, for the first time, a parliamentary debate in the form of LokNeeti, the Youth Parliament had been envisioned and organised this year. It is a forum of discussion and opinions of the people, by the people and for the people.

The agenda for the event was – *Discussing the Minimum Age for Marriage in relation with the Abortion Laws in India*. The purpose of this event was to bring together young and talented minds, having different political perspectives, who desire and deserve to be heard. The event witnessed participation from schools and colleges around the country. With fears debating, speeches and political strategies, the participants tried to focus on the socio-political effects and personal laws that impact the society at large.

The point of distinction of this event was its crisis session format, which was introduced in the 2nd session of the Youth Parliament. It was based on the LGBTQIA+ recognition with respect to the marriage laws in India.

The conclave was inaugurated by lighting the lamp by all dignitaries. A welcome address and introduction of the guests was delivered by Mr. Prabhpreet Singh followed by felicitation of all the guests by Dean, Faculty of Law Prof. (Dr.) Jayram E.R.

The Faculty Moderator Mr. Prabhpreet Singh and the Student Moderator Ms. Mansha Bhatia questioned the legal experts about their experience in the legal domain and how the aspiring legal professionals can best prepare for the various legal domains.

Dr. Suni Augustine shared his valuable words mentioning that any budding lawyers should actively engaged in the extensive research on jurisdictions for the skills development for dealing with cross border legal matters. Understanding theory in college is crucial for budding lawyers, but practical application is crucial in the fast-paced world of law. They must be adaptable, flexible, and have good knowledge in theory to apply it in their practice. To succeed, they should read blogs extensively and enhance their research skills, as extra effort and knowledge are essential in this competitive field. ***“Flexibility of the candidate is a key essential factor.”*** The candidate must thoroughly research about the employer company and what kind of legal acumen they are expecting from the candidate while applying for jobs. As a budding lawyer, the primary objective is to stay updated about every aspect of the legal matters

as the law is of developing nature. He quoted ***“Reading is always essential to get equipped with the legal platform.”*** He added ***“Either know the complete thing or nothing, half cooked knowledge in law is fatal.”***

Mr. Sanjayan Kizhakkedathu said that there should be the broad understanding of the law as it is a significant step towards negotiations. When it comes to cross-border issues, to engage in international collaboration or cross-border relationships, it is essential to be mindful of jurisdiction. The main difference between an in-house counsel and law firms’ lawyer is that ***“In-House Counsel is a Businessmen who happens to be a lawyer.”*** On Cross border legal matters, it is advised to have a better understanding of the cultural aspect of the counsel party. The gender gap in legal departments is decreasing, with 50% or more women lawyers. Good lawyers exhibit gender-neutral qualities and have indefinite exposures. Always find your internship objective of what you are aiming at in that internship. Clear your theory part and develop reading habit which will enhance your industrial employment. ***“Experience is nothing but the ability to understand the particular aspect of law for the advantage of your client.”***

Mrs. Ranjana Singh discussed that the commitments, analytical skills, flexibility, critical thinking are some of the factors that should be covered in every aspect of the legal field. ***“It’s better that we have knowledge of laws of other countries as well as of our own country to understand a broader prospective of matter.”*** If you want to make a successful legal career, reading is a crucial aspect. Keep knowledge of other fields along with legal field. During law school, it is important to work on CVs as they showcase sincerity, handwork, subject knowledge, communication skills, negotiation, commitments, analytical, flexibility, and critical thinking. Grab the opportunities to learn and adapt. Be disciplined and organised and not lose your pace. ***“Legal profession is similar to Researcher.”*** Never push the work for tomorrow instead adopt the principle of ***“Then and There.”*** The work ethic and integrity are the most essential part any recruiter sees. She suggested it is important to cope up stress and quoted ***“Ignorance of tremendous stress is the key to success.”***

Mr. Ashish Kumar Singh talked about how still the old textbook principles of legal research, moot court competitions, paper publications etc. play a crucial role in building a successful career in legal profession. ***“The foundation must be strong which the aspirants can build during their five year or three-year law programmes.”*** He added ***“Marks don’t matter but your skills do.”*** The vast complexity of various laws makes it impossible for any individual to possess knowledge of all legal aspects. Consequently, in order to determine the applicable laws

in specific situations, one must acquire the skill of legal research. Further ***“It's important to understand that the practice of law requires continuous effort and practice. It's not something that can be learned overnight just by researching and attempting to become an expert in a particular area. Practice is key, and one must continuously work at it.”***

Dr. M. Padmavati recommended that there should be active participation in cross countries tasks because in the IPR laws the laws are cross bordered. ***“A successful path is the one where no one can be replaced by anyone but create your own place.”*** Men and Women, they both have equal positions in the society but what makes them unique is their qualities. She quoted ***“women nurtures women”*** as she lightened the picture on women’s adjustment nature and their commitments which keeps them motivated. ***“A lawyer cannot be said to be working specifically on particular law but must have knowledge and experience in many other laws as well.”*** She further quoted ***“Do not wait for someone to give you a served dish instead just make your own dish.”***

The panel discussion was followed by an informal interactive session with the Pre-final and Final year students for the students aspiring for placements. All the students who attended the panel discussion found it to be an excellent experience, as there was a wonderful exchange of information.

PRELIMINARY ROUNDS

DATE: 30th September, 2023 - 01st October, 2023

VENUE: Manipal University Jaipur

MODE: Online / Offline

TIME: 09:30 AM - 10:30 AM, 11:30 AM-12:30 AM

The Preliminary Rounds kicked off with great enthusiasm and vigour from all of the participants. The judges of the round were guests invited to assess the participating students. Intense debates and heated discussions could be heard all throughout the corridor.

Based on the side that they were representing, the Preliminary Rounds marked the first of the oral submissions made by the participants in the fictitious case crafted to test their knowledge of law.

Many triumphed, and were successful in satisfying the judges regarding the questions that were posed to them, and some could be seen struggling in this battle of logic and rational thinking.

Some had crafted arguments that were well-received by the judges, while some fell short by a narrow margin.

Whatever the outcome had been, the Preliminary Rounds offered a taste of an actual court setting, something the participants shall never forget, and learn from, in their quest to become capable of practicing law.

QUARTER FINAL ROUNDS

DATE: September 1, 2023

TIME: 2:00 to 4:00 pm

VENUE: Manipal University Jaipur

After a tough and competitive battle in the Preliminary Rounds, teams were shortlisted to move onto the Quarter Final Rounds of the Moot Court Competition. These rounds took place a few hours after the culmination of the final slot of the Preliminary Rounds.

The competition started getting a lot more technical and in detail, as the participants' research and arguments got more refined and convincing. Along with the increase in the level of the participants, the judges also started posing tougher and more pressing questions in order to challenge and topple their arguments.

All the participants put on a tremendous display of wit and logic, justifying their selection into the Quarter Final Rounds. They started taking into account the littlest of details that might fetch them the required marks to move onto the next round, such as ensuring basic courtroom etiquette, addressing the judges properly, etc.

The participants truly proved their worth and won the hearts of the judges through their perseverant efforts, given the paucity of time for a few of them, who had just been intimated of their selection a few hours ago after the end of the final slot of the Preliminary Rounds

SEMI-FINAL ROUNDS

DATE: October 2, 2023

TIME: 11:00 am to 1:00 PM

VENUE: Manipal University Jaipur

The Quarter Finals concluded with the qualification of the top 4 teams into the next round; the Semi Final. It was sheer hard work and dedication shown by these teams that brought them this close to victory.

One of the most noticeable events in this round was the increase in the strength of the audience who came to witness the clashes of these participants. The Semi Final was conducted a day after the Quarter Finals, giving the participants much needed time to rest and prepare further.

The quality of arguments, and the flow with which they were presented increased manifold. It was evident that the participants were learning from the errors of their previous opponents, and from their own as well, and were coming back stronger and better.

The Rebuttals section of the Round also became interesting, with both the matchups trying to find logical loopholes in the oral submissions of their respective opponents in order to convince the judges about the tenacity and soundness of their own arguments.

FINAL ROUNDS

DATE: 02ND OCTOBER, 2023.

TIME: 2:30 to 4:30 pm

VENUE: Manipal University Jaipur

A huge amount of blood, sweat and tears resulted in the top 2 teams occupying their rightfully earned spots in the final. Days of research and argument formulation had finally been converted into this remarkable feat for them.

The Court Room was full of students bearing witness to the final clash of the teams before a Bench comprising of esteemed knowledgeable people of the respective field.

Both teams displayed their absolute best, knowing fully well that all of their hard work had been for this very moment of glory. The Bench relentlessly posed questions to the teams during their arguments, trying to overwhelm and test their resilience. The teams, for the most part, responded equally well and stuck their ground.

After approximately 90 minutes of argumentation, the School of Law of Manipal University Jaipur had its winner for the Manipal Ranka International Moot Court Competition 2023. No matter who the winner was, every participant imbibed some beneficial feedback for themselves, which they would definitely find the utility of in their professional capacities as future lawyers.

1. INTRODUCTION OF THE EVENT

The Pro Bono Club organised Legal Awareness Camps on Consumer Rights from 30 to 2nd October in Begas, Sanjharia, and Moondia Ramsar, to reach and educate diverse audiences. It was a remarkable camp that brought much-needed awareness to the underprivileged sections of the society about consumer protection. The camp aimed to empower consumers with knowledge and information to safeguard their rights through a systematic and interactive dialogue by esteemed guest speakers specialized in this domain.

The rise in consumer manipulation can be attributed to the unethical tactics employed by vendors driven by their relentless pursuit of profit. These practices have persisted throughout history, prompting authorities to establish rules and laws aimed at curbing such behavior and fostering a transparent and equitable marketplace.

One such milestone was the introduction of the Consumer Protection Act in 1986, which sought to regulate transactions between sellers and consumers, with a focus on ensuring fairness and eliminating corrupt practices. Subsequently, this legislation was replaced by the Consumer Protection Act of 2019, which not only imposed stricter penalties but also broadened its coverage of subjects and conditions.

In a democratic nation like India, safeguarding consumer rights has always been a top priority. This shift in perspective, from "Caveat Emptor" (let the buyer beware) to "Caveat Venditor" (let the seller beware), underscores the commitment to protect, promote, and enforce the rights of consumers as a collective. The primary objective of this Act is to prevent violations of consumers' rights.

The Department of Consumer Affairs, operating under the Ministry of Consumer Affairs, Food, and Public Distribution, bears the responsibility of upholding consumer rights in India. This department empowers consumers to make informed decisions by disseminating information about the laws that safeguard their interests, their rights and responsibilities. They achieve this through the discussions, lectures, and informative materials like pamphlet, booklet, etc. of informative materials like booklets, brochures, fact sheets, and consumer guides, aiming to educate both the public and licensees.

Furthermore, in pursuit of the Act's objectives, the Pro Bono Club at Manipal University Jaipur organized a legal awareness camp dedicated to enlightening the public about consumer rights and responsibilities.

2. OBJECTIVES OF THE EVENT

- Educate about misleading techniques employed by product or service providers and how to detect them.
- Inform about rights available to consumers before and after purchasing a product or service
- Promoting informed decision making by consumers.
- Empowering consumer advocacy in consumer forums and advocate for change

- Promote digital literacy and resources available to consumers
- Empower vulnerable groups to take actionable steps
- Promote interactive platform for dialogue and enhance understanding.

3. DETAILS OF THE GUESTS

- Smt. Ashka Rao (Secretary, DLSA, Jaipur; Additional District and Sessions Judge, Jaipur District, Jaipur)
- Smt. Prabha Agarwal (Advocate, Jaipur)
- Ms. Priyanka Acharya (Advocate, Jaipur)

4. BRIEF DESCRIPTION OF THE EVENT

The Legal Awareness Camps on Consumer Rights were organised by the Pro Bono Club of Manipal University, Jaipur. The three days camps were organised keeping in mind the consumer protection amongst the deserving and rural sector of the society.

DAY 1

Day 1 of the event took place in Panchayat Bhavan, Begas, Rajasthan. The camp started at 10:00 AM. Ms. Shruti Jhunjhunwala, Pro Bono Associate, commenced the camp by delivering the welcome address and introducing the event (Day 1). Ms. Upasna Rana, faculty coordinator of Pro Bono Club, MUJ, moderated it.

The keynote speaker graced the session with her presence and began by eloquently elucidating the challenges consumers face due to manipulation and a lack of awareness about their rights. The speaker emphasized the complexity of legal procedures and how this often leaves consumers feeling helpless. The beneficiaries of the camp were informed about the consumer rights provided by Consumer Protection Act, 1986

These rights included Right to safety (like insisting on guarantee and warranty of the product and replace adulterated product), Right to Choose, the Right to be informed, Right to be heard, Right to seek redressal and Right to compensation.

The speaker also asserted the responsibilities or duties of the consumer before and after purchasing a product or availing a service. She provided online resources and websites by sharing helpline numbers and websites for easy access to redressal. The participants were made aware of the consumer courts, which one can approach to seek compensation depending on the value of goods in dispute. Mediation, as an Alternate Dispute Resolution (ADR), is also available at their disposal. Lastly, the speaker underscored the importance of enforcing rights available to consumers regardless of their caste, creed, and status and how this contributes to the betterment of society.

At 11:00 AM, the floor was open for questions that witnessed an interactive platform for queries and discussions between the camp beneficiaries and the guest speaker, which was a testament to a successful camp.

The camp concluded with vote of thanks by Ms. Eshita Baghel, faculty coordinator of Pro Bono Club, MUJ. The esteemed guest speaker was honoured and felicitated with memento as a token of appreciation.

DAY 2

Day 2 of the Camp commenced at 11:00AM, on 31st October, 2023 in Government Senior Secondary School Sanjhariya, Jaipur. The welcome address was given by Ms. Shruti Jhunjunwala, Pro Bono Associate to invite our guest speaker and panel advocate of District Legal Services Authority of Jaipur, Smt. Prabha Agarwal.

She introduced the session to the young students and teachers who were the beneficiaries of the session and were eager to explore this domain of consumer awareness. The session was initiated by understanding the definition of a consumer according to the Consumer Protection Act, 1986. The speaker also highlighted the differences between the Consumer Protection Act, 1986 and the Act of 2019 wherein the latter provided greater benefits of the consumers. The session's efficient moderation was overseen by Ms. Upasna Rana, the faculty coordinator of the Pro Bono Club at MUJ.

Then the students understood the types of manipulation employed by sellers to sell a good or service and how consumers can be aware of the same. The participants were also introduced to the redressal mechanisms available at the district, state, and national levels, providing guidance on the appropriate avenues based on the value of disputed goods.

Consumer rights and duties were an important part of the session. This led to a surge in curiosity among the participants, who actively engaged in raising questions pertaining to the regulation of digital platforms under the Consumer Protection Act, given the prevalence of digital transactions. In clear and accessible language, the speaker elucidated the concept of product liability for digital platforms and intermediaries involved in the sale or promotion of defective goods and substandard services, often through unscrupulous means. Additionally, the session covered the various types of compensation and the methodologies for determining the quantum of damages.

In her closing remarks, the speaker encouraged the participants to raise their voices when confronted with manipulation and underscored the potential for positive change that can be initiated by young students. She urged them not to hesitate and emphasized the impactful role they could play in this regard.

Finally, to express our appreciation, Ms. Eshita Baghel, the faculty coordinator of the Pro Bono Club at MUJ, delivered a heartfelt vote of thanks to honour our esteemed guest speaker. Smt. Prabha Agarwal was recognized for her valuable contributions with a memento as a token of gratitude.

At the conclusion of the session, participants were provided with refreshments and informational booklets, marking the formal closure of the camp at 11:30 AM.

DAY 3

On the 2nd of November 2023, the Legal Awareness Camp on Consumer Rights at Panchayat Bhavan Mundiya Ramsar, Jaipur, entered its third day, commencing at 11:00AM. The honoured guest speaker for this session was Smt. Ashka Rao, who holds the esteemed position of Additional District and Sessions Judge, as well as the Secretary of District Legal Services Authority in Jaipur. The welcome address was delivered by Ms. Shruti Jhunjunwala, serving as a Pro Bono Associate, who extended a warm invitation to our distinguished guest speaker, known for her vast expertise in the realm of consumer rights and awareness. The beneficiaries of this enlightening day were the local villagers of the district.

The session was inaugurated by the guest speaker, who began by elucidating the fundamental definition of a consumer and shedding light on the significant disparities between the previous and the recent Consumer Protection Acts. In her insightful presentation, she expounded upon how the new Act serves the interests of consumers, affording them greater accessibility to consumer forums for registering their grievances. Participants were apprised of the availability of free and affordable legal aid to facilitate the resolution of consumer disputes.

The distinguished speaker very effortlessly engaged the participants by citing real-life instances of consumer fraud, enhancing their comprehension of the subject matter. The audience was thoroughly engrossed, attentively following the speaker throughout the session. The discussion covered the responsibilities of celebrities endorsing products and underscored the repercussions faced by public figures for propagating false or misleading claims in advertisements. According to the Consumer Protection Act of 2019, celebrities are mandated to enter into agreements ensuring that the products they endorse are free from defects; otherwise, they bear liability for any associated issues.

Furthermore, it was emphasized that product information should be comprehensive, including details such as nutritional value, usage instructions, warranty periods, and manufacturing and expiry dates to maintain transparency. Failure to comply with these standards would result in penalties for the seller. The significance of retaining purchase receipts or bills, which serve as evidence for potential returns and seeking redress and compensation from the seller, was also underscored.

In line with the contemporary technological advancements, the speaker elucidated that dispute resolution can now be facilitated through video conferencing which is an easy and efficient mechanism. Additionally, participants were provided with website details and a helpline number (8306002120) to further assist them in consumer-related matters.

The session drew to a close with the speaker reiterating the paramount importance of consumer awareness. Post-session, the speaker engaged with participants, addressing their individual consumer rights concerns and offering practical solutions. This interaction left the villagers content and well-informed.

To conclude, informative pamphlets and booklets, presented in Hindi for easy comprehension, were distributed among the participants, covering topics related to cyber frauds and their corresponding solutions. Ms. Eshita Baghel, the faculty coordinator of the Pro Bono Club at MUJ, delivered the vote of thanks to honour the esteemed guest speaker.

In a gesture of appreciation, the speaker was honoured with a memento, by Ms. Upasna Rana, the faculty coordinator of the Pro Bono Club at MUJ and moderator of the camp acknowledging her invaluable contributions to the camp.

The camp formally concluded at 12:15 PM, with participants enjoying refreshments as a token of gratitude for their active participation and interest in the session. Overall, the camp undoubtedly contributed to enhancing consumer empowerment and protection to the vulnerable sections of the society and made significant strides in bridging the gap between laws and its implementation at the grassroots of economy.

1. Introduction of the Event

Commercial Arbitration and Mediation are alternative methods of resolving disputes without going to court. They offer parties a private, efficient, and cost-effective way to settle their differences. Arbitration is a formal process where a neutral arbitrator hears both sides of the dispute and makes a binding decision, known as an award. The parties agree in advance to accept the arbitrator's decision as final and binding, usually through an arbitration clause in a contract. On the other hand, mediation is a less formal process where a mediator helps the parties reach a voluntary agreement. The mediator doesn't have the power to impose a decision but assists in facilitating a mutually satisfactory resolution. The agreement reached in mediation is enforceable only if it is reduced to writing and signed by both parties.

2. Objective of the Event

About the book

Media, both in India and in other democracies in the world, has come under sharp scrutiny in this era of technology, where we have been witnessing an information deluge, driven mainly by social media platforms. At times, it becomes difficult to ascertain which of the two—the mainstream media or social media—represents the people at large. The situation is clouded, to say the least. The book, which has been edited by a team of professionals from academia and industry, is an attempt to showcase the dilemma faced by the media in the 21st century.

The topics have been carefully selected after ascertaining if they truly represent the underlying idea behind the book. The contributors to these well researched and well written articles and essays have been people from different fields of the media, making the book well representative of modern day media. The articles narrate the current situation prevailing in the media industry as well as the social aspects of the media. An attempt has been made to make sure that the articles and essays are grammatically correct and expressive, yet there may be some shortcomings, especially in the process of editing. In fact, the delay in the publication of the book can be attributed to the efforts by the editors to ensure an error-free book. The editors earnestly hope that the readers will appreciate the book.

This summit is a testament to our collective dedication to upholding the constitutional rule of law, safeguarding emerging social rights, and charting the course for the future of fundamental rights. In an era marked by transformative societal shifts, technological advancements, and evolving geopolitical landscapes, the conversations we embark upon today hold unparalleled significance.

The constitutional rule of law forms the bedrock of democratic societies, ensuring that governance is anchored in the principles of justice, equality, and the protection of individual rights. As we gather here, we confront a myriad of challenges that demand our attention, from the protection of civil liberties to the preservation of democratic institutions. This summit provides an invaluable platform to explore innovative strategies and collaborative solutions to fortify the rule of law globally.

The future of fundamental rights lies at the heart of our deliberations. As we navigate an era of rapid change, our commitment to human rights must be unwavering. Whether addressing issues of technological ethics, environmental justice, or the protection of marginalized communities, our discussions will shape the trajectory of fundamental rights in the years to come.

5. Brief Description of the event

The conclave was inaugurated by lighting the lamp by all dignitaries. A welcome address and introduction of the guests was delivered by Mr. Prabhpreet Singh followed by felicitation of all the guests by Dean, Faculty of Law Prof. (Dr.) Jayram E.R.

The Faculty Moderator Mr. Prabhpreet Singh and the Student Moderator Ms. Mansha Bhatia questioned the legal experts about their experience in the legal domain and how the aspiring legal professionals can best prepare for the various legal domains.

Dr. Suni Augustine shared his valuable words mentioning that any budding lawyers should actively engaged in the extensive research on jurisdictions for the skills development for dealing with cross border legal matters. Understanding theory in college is crucial for budding lawyers, but practical application is crucial in the fast-paced world of law. They must be adaptable, flexible, and have good knowledge in theory to apply it in their practice. To succeed, they should read blogs extensively and enhance their research skills, as extra effort and knowledge are essential in this competitive field. ***“Flexibility of the candidate is a key essential factor.”*** The candidate must thoroughly research about the employer company and what kind of legal acumen they are expecting from the candidate while applying for jobs. As a budding lawyer, the primary objective is to stay updated about every aspect of the legal matters

as the law is of developing nature. He quoted ***“Reading is always essential to get equipped with the legal platform.”*** He added ***“Either know the complete thing or nothing, half cooked knowledge in law is fatal.”***

Mr. Sanjayan Kizhakkedathu said that there should be the broad understanding of the law as it is a significant step towards negotiations. When it comes to cross-border issues, to engage in international collaboration or cross-border relationships, it is essential to be mindful of jurisdiction. The main difference between an in-house counsel and law firms’ lawyer is that ***“In-House Counsel is a Businessmen who happens to be a lawyer.”*** On Cross border legal matters, it is advised to have a better understanding of the cultural aspect of the counsel party. The gender gap in legal departments is decreasing, with 50% or more women lawyers. Good lawyers exhibit gender-neutral qualities and have indefinite exposures. Always find your internship objective of what you are aiming at in that internship. Clear your theory part and develop reading habit which will enhance your industrial employment. ***“Experience is nothing but the ability to understand the particular aspect of law for the advantage of your client.”***

Mrs. Ranjana Singh discussed that the commitments, analytical skills, flexibility, critical thinking are some of the factors that should be covered in every aspect of the legal field. ***“It’s better that we have knowledge of laws of other countries as well as of our own country to understand a broader prospective of matter.”*** If you want to make a successful legal career, reading is a crucial aspect. Keep knowledge of other fields along with legal field. During law school, it is important to work on CVs as they showcase sincerity, handwork, subject knowledge, communication skills, negotiation, commitments, analytical, flexibility, and critical thinking. Grab the opportunities to learn and adapt. Be disciplined and organised and not lose your pace. ***“Legal profession is similar to Researcher.”*** Never push the work for tomorrow instead adopt the principle of ***“Then and There.”*** The work ethic and integrity are the most essential part any recruiter sees. She suggested it is important to cope up stress and quoted ***“Ignorance of tremendous stress is the key to success.”***

Mr. Ashish Kumar Singh talked about how still the old textbook principles of legal research, moot court competitions, paper publications etc. play a crucial role in building a successful career in legal profession. ***“The foundation must be strong which the aspirants can build during their five year or three-year law programmes.”*** He added ***“Marks don’t matter but your skills do.”*** The vast complexity of various laws makes it impossible for any individual to possess knowledge of all legal aspects. Consequently, in order to determine the applicable laws

in specific situations, one must acquire the skill of legal research. Further ***“It's important to understand that the practice of law requires continuous effort and practice. It's not something that can be learned overnight just by researching and attempting to become an expert in a particular area. Practice is key, and one must continuously work at it.”***

Dr. M. Padmavati recommended that there should be active participation in cross countries tasks because in the IPR laws the laws are cross bordered. ***“A successful path is the one where no one can be replaced by anyone but create your own place.”*** Men and Women, they both have equal positions in the society but what makes them unique is their qualities. She quoted ***“women nurtures women”*** as she lightened the picture on women’s adjustment nature and their commitments which keeps them motivated. ***“A lawyer cannot be said to be working specifically on particular law but must have knowledge and experience in many other laws as well.”*** She further quoted ***“Do not wait for someone to give you a served dish instead just make your own dish.”***

The panel discussion was followed by an informal interactive session with the Pre-final and Final year students for the students aspiring for placements. All the students who attended the panel discussion found it to be an excellent experience, as there was a wonderful exchange of information.

The Preliminary Rounds kicked off with great enthusiasm and vigour from all of the participants. The judges of the round were guests invited to assess the participating students. Intense debates and heated discussions could be heard all throughout the corridor.

Based on the side that they were representing, the Preliminary Rounds marked the first of the oral submissions made by the participants in the fictitious case crafted to test their knowledge of law.

Many triumphed, and were successful in satisfying the judges regarding the questions that were posed to them, and some could be seen struggling in this battle of logic and rational thinking.

Some had crafted arguments that were well-received by the judges, while some fell short by a narrow margin.

Whatever the outcome had been, the Preliminary Rounds offered a taste of an actual court setting, something the participants shall never forget, and learn from, in their quest to become capable of practicing law.

QUARTER FINAL ROUNDS

MANIPAL UNIVERSITY JAIPUR

DATE: September 1, 2023

TIME: 2:00 to 4:00 pm

VENUE: Manipal University Jaipur

After a tough and competitive battle in the Preliminary Rounds, teams were shortlisted to move onto the Quarter Final Rounds of the Moot Court Competition. These rounds took place a few hours after the culmination of the final slot of the Preliminary Rounds.

The competition started getting a lot more technical and in detail, as the participants' research and arguments got more refined and convincing. Along with the increase in the level of the participants, the judges also started posing tougher and more pressing questions in order to challenge and topple their arguments.

All the participants put on a tremendous display of wit and logic, justifying their selection into the Quarter Final Rounds. They started taking into account the littlest of details that might fetch them the required marks to move onto the next round, such as ensuring basic courtroom etiquette, addressing the judges properly, etc.

The participants truly proved their worth and won the hearts of the judges through their perseverant efforts, given the paucity of time for a few of them, who had just been intimated of their selection a few hours ago after the end of the final slot of the Preliminary Rounds

SEMI-FINAL ROUNDS

MANIPAL UNIVERSITY JAIPUR

DATE: October 2, 2023

TIME: 11:00 am to 1:00 PM

VENUE: Manipal University Jaipur

The Quarter Finals concluded with the qualification of the top 4 teams into the next round; the Semi Final. It was sheer hard work and dedication shown by these teams that brought them this close to victory.

One of the most noticeable events in this round was the increase in the strength of the audience who came to witness the clashes of these participants. The Semi Final was conducted a day after the Quarter Finals, giving the participants much needed time to rest and prepare further.

The quality of arguments, and the flow with which they were presented increased manifold. It was evident that the participants were learning from the errors of their previous opponents, and from their own as well, and were coming back stronger and better.

The Rebuttals section of the Round also became interesting, with both the matchups trying to find logical loopholes in the oral submissions of their respective opponents in order to convince the judges about the tenacity and soundness of their own arguments.

FINAL ROUNDS

A huge amount of blood, sweat and tears resulted in the top 2 teams occupying their rightfully earned spots in the final. Days of research and argument formulation had finally been converted into this remarkable feat for them.

The Court Room was full of students bearing witness to the final clash of the teams before a Bench comprising of esteemed knowledgeable people of the respective field.

Both teams displayed their absolute best, knowing fully well that all of their hard work had been for this very moment of glory. The Bench relentlessly posed questions to the teams during their arguments, trying to overwhelm and test their resilience. The teams, for the most part, responded equally well and stuck their ground.

After approximately 90 minutes of argumentation, the School of Law of Manipal University Jaipur had its winner for the Manipal Ranka International Moot Court Competition 2023. ABSTRACT

This paper presents a study of Indian media. Utilizing the Propaganda Model formulated by Herman and Chomsky in the book *Manufacturing Consent: The Political Economy of Mass Media* (1988), the paper aims to critically assess the news patterns and media performance of the mainstream Indian media. The contribution of the paper will be the application of the propaganda model in the context of Indian media. For this study, we have analyzed the media coverage of two events - India's ban on Chinese apps and the Pulwama attack. We focus on how Indian Media has helped the Government to establish the propaganda of nationalism during both events, which is explained by Herman and Chomsky in the five filters of news production. We investigate how the anti-China sentiment and the Pulwama attack have been used by the Government to divert attention from their failure of governance, and mismanagement of the COVID-19 pandemic. The corporate media is playing its part in the machinations of the ruling BJP party. We conclude that the plurality of voices amongst journalists is in decline.

If patriotism were defined, not as blind obedience to government, nor as submissive worship to flags and anthems, but rather as a love of one's country, one's fellow citizens (all over the world), as loyalty to the principles of justice and democracy, then patriotism would require us to disobey our government when it violated those principles.¹

Introduction

This paper undertakes a study of the Indian Media that draws on the work of American media scholar Edward S. Herman and American social critic Noam Chomsky. The study aims to focus on Indian media through the prism of the Propaganda Model of media operations, which was formulated in the book *Manufacturing Consent: The Political Economy of the Mass Media* (1988). In a nutshell, the book argues that media organizations interlock with other institutional sectors through ownership, management, and social circles, effectively circumscribing their ability to remain analytically detached from the other

institutions of power in society. According to Herman and Chomsky, public opinion in democratic societies is manufactured through the manipulation of the public.²

This idea is increasingly relevant in contemporary India because of the corporate ownership of media and right-wing pressure on television and print media.³ In India, which is “theoretically a democratic country,”⁴ it is difficult for journalists to raise their voices over controversial issues. The freedom of journalists is increasingly undermined. According to New York-based democracy monitoring organization, *Freedom House*, India’s political rights and civil liberties have declined considerably under the Modi’s Government. Many journalists risk harassment, death threats, and physical violence in the course of their work.⁵ According to the *Committee to Protect Journalists*, five journalists were killed in connection with their work in 2018, and four in 2017. There is a decline in journalistic standards in India, particularly in the electronic media. Critical media in India are persistently targeted by the Government. The right-wing nationalist Bharatiya Janata Party (BJP), which is the current ruling party in India, is imposing its ideology by weaponizing Indian media.⁶

The decline of media freedom in India has been studied by many scholars like Jaffrelot and Verniers,⁷ Bhat and Chadha,⁸ and Basu.⁹ We have also recently seen new engagement with the ideas of Herman and Chomsky: the book *The Propaganda Model Today: Filtering Perception and Awareness*, undertakes a contemporary media analysis based on the original propaganda model.¹⁰ Based on case studies and comparative reviews, the authors show the continuing relevance and critical potential of Herman and Chomsky’s classic work. In addition, the model is suitable in different arrangements “where basic structural conditions which the model analyses exist.”¹¹ Furthering critical

media scholarship, we will apply the Herman and Chomsky propaganda model to investigate contemporary Indian media. This inquiry will help us to understand how in 2020, India’s media has solicited public support for economic, social, and political policies, both foreign and domestic. The result is a broad and critical interpretation of the current state of the Indian media and its relations with India’s political and economic establishment. To do so, we will draw on existing media research, as well as provide evidence using content analysis.¹² The analysis will focus on (i) the Pulwama attack drawing on existing media research, and (ii) the coverage of the Chinese apps bans in four leading Indian newspapers based on our own media research.

In addition, we will investigate the “five filters” (or elements) of the news construction in Herman and Chomsky’s model: ownership, advertising, sourcing, flak and anti-communism ideology – and how these filters fit in the Indian media context. This will expand knowledge of the different kinds of established structural forces within India that shape the production of news. In this paper, my core focus is on the Indian Government and corporate media. We analyze how together, the Government and the corporate-dominated media, have diverted people’s

The Icons of Unadulterated Evil: Bollywood Villains of the 1980s

Debarshi Prasad Nath  and Swikrita Dowerah* 

Introduction

India has always been a land of great villains. And many of these villains have also enjoyed a lot of fan following. Hindu mythology has many stories of villains (in the form of asuras and monsters) who were formidable adversaries of the *devatas*. The idea of the villain as someone who is a strong adversary to the *devatas* runs through traditions of Indian storytelling. Very often the villains took a stand of principled opposition to that of the hero. While being cruelly vindictive, the villains in these stories would nevertheless always maintain a sense of dignity. They followed their codes of honor which were rarely violated. This aspect of opposition was perhaps embedded in the strong tradition in India of nurturing alternative voices in public life (Amartya Sen 2012; Ashok Vājapeyī 2017). Heterodoxy has therefore always been an important aspect of Indian social life and the very existence of the villainous characters (mythological or otherwise) reflected this fact.

The tradition of villainy in popular Hindi cinema till the 1980s of the last century owes a lot to the folkloric traditions that abound in plentiful images of highly stylized images of larger-than-life villains. Booth (1995) explains the popularity of Hindi cinema in a country as heterogeneous as India as the result of the universal influence of the epics:

I propose that beneath the Westernized gloss of the commercial cinema, and despite its manipulative capitalist tendencies, there are direct connections with the large body of epic stories that exist in oral and written form throughout India. I suggest, too, that it is the continued use of these traditional elements that explains the ongoing popularity of Hindi films. (172)

Abstract:

Data theft and other cell phone crimes are increasing day by day. Unauthorized access can be controlled through the strong authentication process. Authentication plays a vital role in smartphones as everyone stores all kind of data on smartphone due to comfort and accessibility feature it provides. Layered based multimodal biometric authentication is a great technique where it is compulsory for the users to go through all the layers to use the smartphone application. The proposed M3AS system is based on three layered multimodal biometric authentications. In this system the author used three techniques for all three layers of authentication i.e., Id-Password, Keystroke Dynamics, and Touch Dynamics. Before login the application user goes through with the first two-layer and after login the application user's identity will be checked all over the session using touch dynamics in third layer. To check the accuracy the author collected keystroke and touch features from 60 users at three different times. FAR, FRR and EER analysis was done to verify the proposed systems' authenticity. FAR is 8.33%, FRR is 14.90% and EER is 11.61%. The proposed system achieved the accuracy 92%.

 **Contents****I. Introduction**

User authentication has become an important security aspect of smartphones as user stores all personal and professional information on their smartphone. Pin and password are easy to guess, and anybody can steal pin and password using finger oil and shoulder surfing [1]. Physiology authentication such as face, iris recognition and finger pattern are also having lots of security issues on smartphones [2]. Therefore, a highly secured solution is required which authenticate a user during current session with different techniques and methods at the same platform.
