The coveted five star GRIHA award under Green Rating for Integrated Habitat Assessment was conferred to MUJ during the 7th GRIHA Summit held at India Habitat Centre, New Delhi, on 19th Feb., 2016 by Chairman, TERI Dr. Ashok Chawla, Director General TERI, Dr. Ajay Mathur and Dr. Mili Mazumdar TERI. The award was received by Prof. Rajesh Mathur, Director, SCCE, Prof. Rajveer Singh Shekhawat, Director, SCIT and Mr. Ranjay Jaysingh Verma, Manager, MIS on behalf of MUJ.

ASSOCHAM National Excellence Awards

Manipal University Jaipur has been conferred with two National Awards of Excellence by ASSOCHAM India in New Delhi as part of Higher Education Summit 2016. The University bagged the Best Upcoming B-School Award in the B-School Awards category. It also got the Best Campus Management Solution Providers Award from Service Providers category. The awards were presented to Dr. Sandeep Sancheti, President and Dr. Vandana Suhag, Registrar, MUJ by Dr. Ram Shankar Katheria, Hon'ble Minister of State, HRD, Govt. of India.

Editorial:

While the university is steadily moving forward on its path of growth and development, every new session calls for a revisit to our visions and missions- the core of all that we do and all that we are.

Prof. Sandeep Sancheti
President, MUJ

Dear Friends, Well-wishers and MUJ Fraternity,

Welcome to the new version of MUJ Times.

As our campus is renowned all over the country for being a smart campus, so must be our approach. Taking cue from the above mentioned fact and switching over to more eco-friendly techniques, MUJ Times is donning a new avatar. First, it's getting digitalized and now will be available as e-journal. Next, from being just a news based magazine, MUJ Times will now reflect philosophy, vision and mission of MUJ academia. Also this time, the students of Journalism and Mass Communication must have a direct say in it as they are also contributing their efforts in order to make this magazine more vibrant and reachable. MUJ Times will now reflect the intellectual stance of academia and attempts to feel the pulse of the university. Shedding the image of being a traditional news journal, MUJ Times attempts to explore a variety of concepts and ideas. Department of Journalism and Mass Communication is attempting to play a pivotal role in this regard by inducing novel experimentation techniques in classroom teaching, use of language in media and the way news are interpreted. Bold enough to conduct experiments having multi-dimensional implications, MUJ Times is just the first step of its kind in this regard.

This is also a time to invite all of you to contribute and share your ideas, suggestions, innovation, and point out the key issues for improvement to make this journal worthwhile, more useful and a platform for free expression of the creativity and positivity for all our patrons – “the readers”.

-Ravi Chaturvedi

On the path of Qualitative Growth

While the university is steadily moving forward on its path of growth and development, every new session calls for a revisit to our visions and missions- the core of all that we do and all that we are. The past few months and in the months to come, the focus will be on *multi-dimensional qualitative growth* by the means of *Capacity enhancement*.

Capacity enhancement is an on-going and dynamic process and within its broad preview, capacity enhancement of the faculty is pivotal, as we understand that they are the “*drives for enabling the quality*”. We have introduced many new faculty with diverse specialization to the MUJ family, broadening our academic horizon. To further our vision of faculty capacity enhancement we are consistently creating opportunities for improving qualification, increasing the level of exposure and collaborations. We are empowering our faculty by means of various FDPs and by providing them the access to advanced academic support infrastructure- both, equipments and softwares.

Another important aspect of Capacity enhancement in the augmentation of our physical infrastructure. The enhancement of faculty combined with greater infrastructure will enable us to consolidating and strengthening our research and consultancy capabilities.

This vision of capacity enhancement and comprehensive growth is being actualized by finalizing and implementing the *University's Quality policy*, which defines and enhances the scope of use of PDA (Personality development allowance) and creates several new schemes under the “*Endowment fund – The vehicle for change*”.

Innovation in Admission

Keeping in line with the values of ingenuity and team-work, the MUJ admissions team adopted the innovative practice of School-connect and College-connect programs. These programs enabled us to reach our prospective candidates even before the race for admissions began. Various schools, in and around Jaipur, were invited to attend the academic-cum-career counselling sessions at our beautiful campus, providing them with an opportunity to interact with us in close proximity.

The Heads of various departments introduced their respective courses and its academic and professional scope to the students, who were then taken on campus tours to visit our state-of-the-art classrooms, labs, library and extra-curricular facilities. The admissions team also conducted college-connect program, through which they were able to visit colleges across India and introduce the post-graduate courses offered by MUJ.

The school-connect & college-connect programs were very successful in creating a buzz that resulted in increased footfalls, quires and eventually, admissions. The presence of MUJ admissions team was even felt internationally, bringing to us students from as far as UAE and the US.

YOHO @ glance

At the hostels of MUJ i.e. YOHO, students are provided a neat and clean environment and a comfortable place to live in. As discipline is the key to success and career building, hence spirit of self-discipline among students is unequivocally promoted. Spirits of sportsmanship is promoted among the students in order to keep them healthy.

YOHO has witnessed upgradation in terms of hostel based sports facilities and other extra-curricular infrastructure. A well-equipped gym for students with extremely efficient trainers make YOHO unique in its own way. As the number of students will increase this year, many new hostels have also started functioning for the very first time. Some hostels are under construction and will function by next year. YOHO is looked after 24*7 by a dedicated team of hostel wardens assisted by caretakers. In a nutshell, life at YOHO teaches students to be self-reliant and provides opportunity to mix up freely with other students belonging to different color, caste, creed, culture and religion thus strengthening the multi-cultural framework of democratic India.
